

BEST PLACES FOR WOMEN TO WORK IN NORTHERN NEVADA

Nevada Women's Fund is proud to share the results of our inaugural Best Places for Women to Work in Northern Nevada survey. The participating employers collectively represent a workforce of more than 33,000 across Northern Nevada.

This survey was designed to shine a spotlight on the efforts being made to support and empower women in the workplace, while also helping us identify areas where Nevada Women's Fund can step in to address gaps and drive greater impact.

Join us in celebrating the following employers, who are leading the way in creating inclusive, supportive, and empowering work environments.
